CONCEPT BEHIND

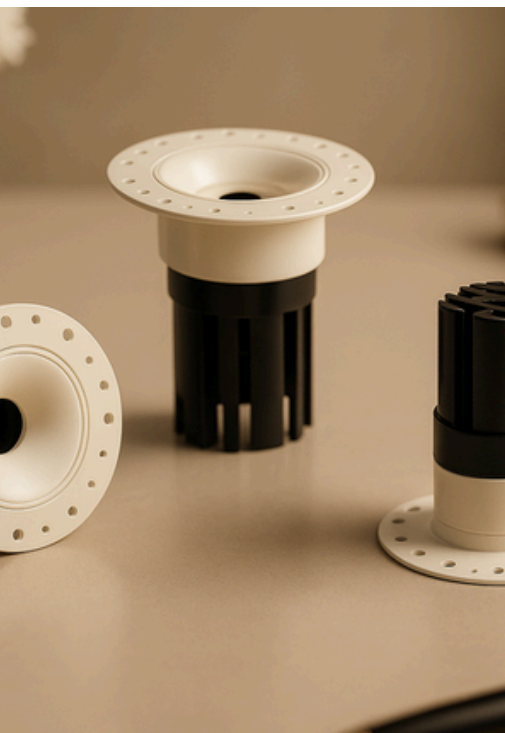

At **Lune Brillante**, we bring lighting innovations to life with our sophisticated collections. With over 14 years of experience in architectural lighting for interiors, we are renowned for bespoke solutions tailored to customer needs.

Our signature and classic lighting options offer timeless appeal and emotional connections. Beyond our products, we provide end-to-end lighting consultancy, an inspiration gallery, and educational content. Visit our minimalist studio in central Singapore for a curated, immersive shopping experience where your comfort is our priority.

AT A GLANCE

Chandelle™

Module B Ring

Engineered comfort through
thoughtful lighting

**Timeless form.
Thoughtful light.**

The Chandelle LED Adjustable Recessed Downlight features a classic circular design with an interchangeable reflector in multiple colors for a modern touch. Made from high-quality aluminum, it ensures optimal heat dissipation for consistent performance.

www.lunebrillante.sg

+

lunebrillante

Classic form meets modern ambience

A timeless design paired with tunable light, creating warmth and balance in every space.

Each configuration maintains the same visual language, allowing designers to scale lighting layouts without disrupting ceiling harmony.

Tunable & Dimmable Options Available
Adaptable to different moods, functions, and times of day.

AVAILABLE REFLECTOR COLORS

SILVER

Chandelle™

Montir

A refined expression
of architectural precision.

Purposeful. Precise. Architectural.

Designed for spaces that demand clarity, control, and visual discipline, Montir is a surface-mounted downlight system defined by its clean geometry and high-performance optics.

www.lunebrillante.sg

+

Chandelle™
Montir

Montir

Surface Mounted Downlight

Structured. Composed. Architectural.

Shapes light through controlled optics while asserting a clear, intentional presence on the ceiling plane. Designed for spaces where form and function must coexist in balance. Good for Focused illumination, Ceiling rhythm, Architectural accents and Spatial clarity

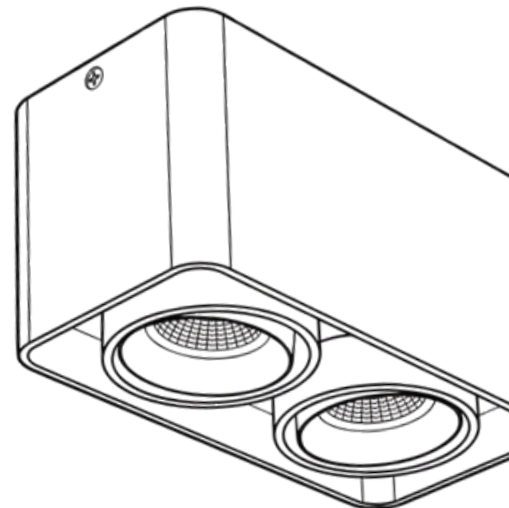

- Controlled beam distribution
- Excellent visual comfort
- Consistent output across configurations

Architectural Form, Honest Geometry

Montir is shaped as a solid rectilinear volume, intentional, calm, and uncompromising. Its form integrates seamlessly into contemporary interiors, from refined residential spaces to commercial and hospitality environments.

The recessed optics within the block housing create visual depth while ensuring excellent glare control, allowing the light to remain the focus, not the fixture.

High-Precision Lighting System

Single or multi-slot configurations allow linear or clustered layouts, aligned to architectural rhythm.

Each configuration maintains the same visual language, allowing designers to scale lighting layouts without disrupting ceiling harmony.

Tunable & Dimmable Options Available
Adaptable to different moods, functions, and times of day.

AVAILABLE IN SINGLE OR MULTI-HEAD OPTIONS

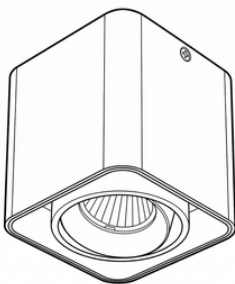

www.lunebrillante.sg

Chandelle™

Designed for Demanding Spaces

Whether used as a standalone accent or arranged in rhythmic sequences, Montir provides lighting that is both technically confident and visually restrained.

Chandelle™

LUXE + LEGO LIGHT

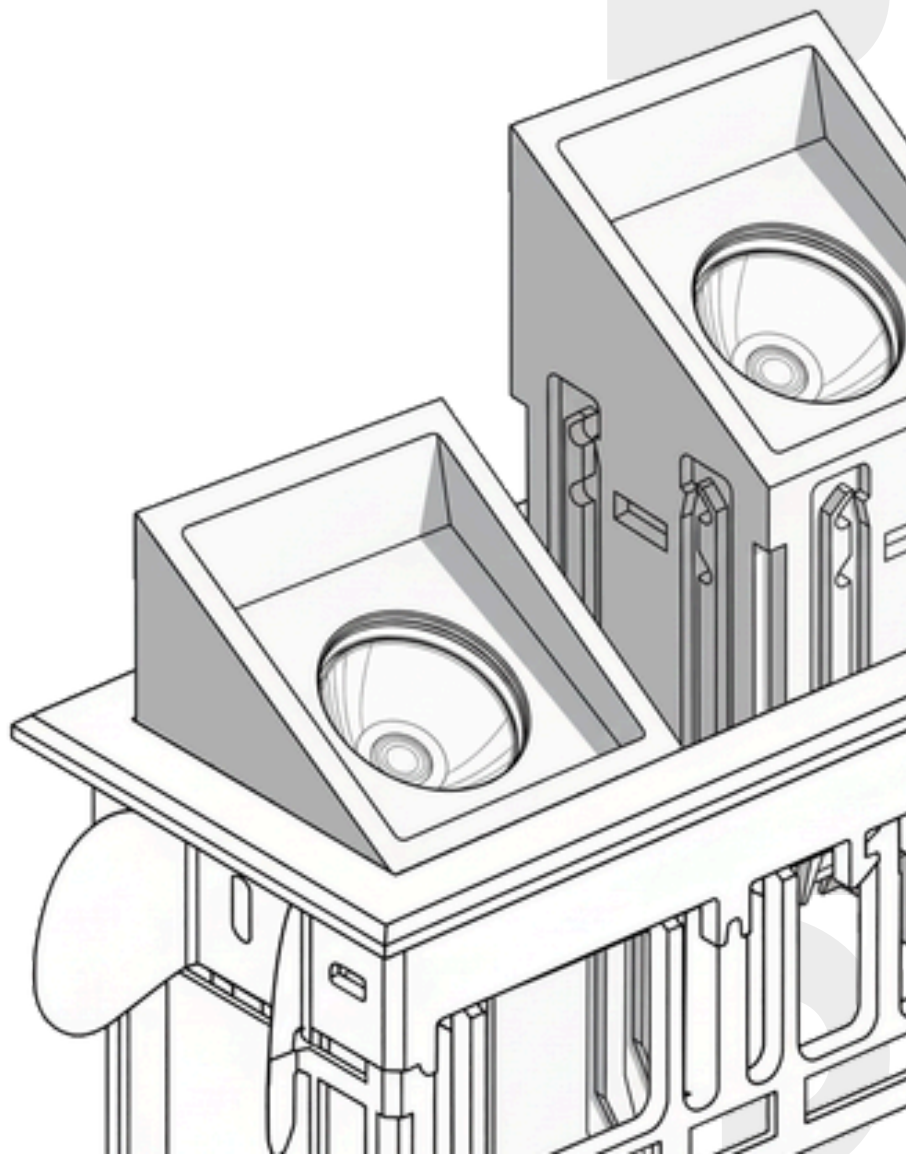

Modular Recessed Lighting System
40mm High Brightness

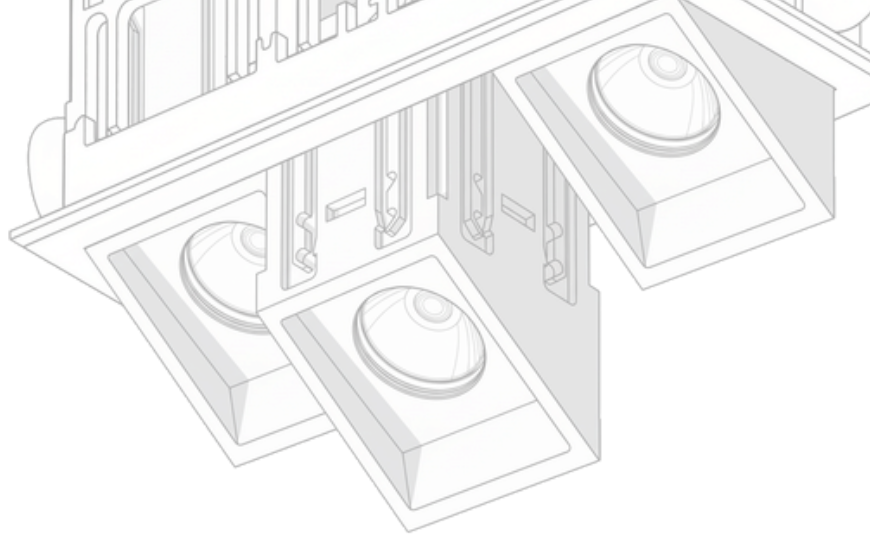

**Designed
as architecture.**

A modular recessed lighting system designed as an architectural element precise, seamless, and adaptable, integrating light naturally into space.

 www.lunebrillante.sg

LEGO LIGHT

LUXE - A

Fixed Downlight
Calm. Balanced. Controlled.

Designed for uniform illumination where consistency and visual quietness are essential. Good for *General lighting, Repetitive layouts, Architectural rhythm.*

LUXE - C

Adjustable Spotlight Module
Flexible. Focused. Purposeful.

Allows light to be directed precisely without disrupting the ceiling language. Good for *Feature walls, Art Objects, Adjustable emphasis*

LUXE - B

Fixed Directional Downlight
Defined. Intentional. Architectural.

Shapes light with precision while maintaining a disciplined ceiling expression. Good for *Accents, Spatial definition, Visual hierarchy*

LUXE - D

Soft Lens Module
Gentle. Diffused. Atmospheric.

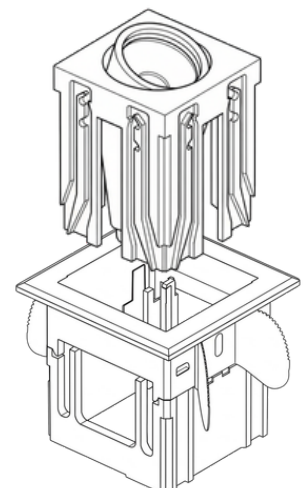

Creates a softer light presence for spaces that require visual comfort and restraint. Good for *Ambient layers, Circulation areas, Calm environments.*

Not a Fixture, But as System.

LUXE+ Lego Light is a modular recessed lighting system designed to work with architecture, not against it.

Interchangeable modules.
Consistent ceiling language.
Freedom to adapt as design evolves.

Lighting becomes part of the ceiling composition,
not an afterthought.

One System, Multiple Expressions

Single or multi-slot configurations allow linear or clustered layouts, aligned to architectural rhythm.

Luxe+ Trimless

Plaster-In Housing
Flush. Quiet. Seamless.

Integrated within the ceiling plane for a continuous, uninterrupted finish.

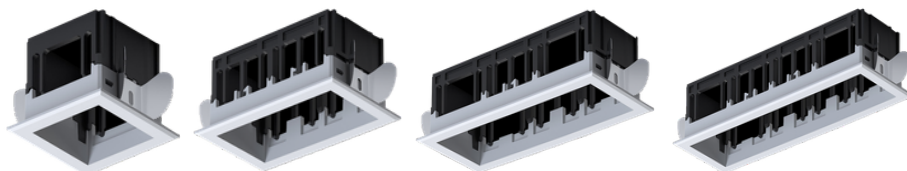

Luxe+ Trim

A Precise Edge
Clear Architectural Definition

Designed to articulate the ceiling plane with clarity and precision.

AVAILABLE IN 1-4 SLOT OPTIONS
