LUXE+ **Lego Light**

Modular Recessed Lighting System
40mm High Brightness

**Designed
as architecture.**

A modular recessed lighting system defined by precision, seamless integration, and adaptability.

www.lunebrillante.sg

LUXE - A

Fixed Downlight
Calm. Balanced. Controlled.

Designed for uniform illumination where consistency and visual discretion are essential. Ideal for general lighting, repetitive layouts, and architectural rhythm.

LUXE - C

Adjustable Spotlight Module
Flexible. Focused. Purposeful.

Allows light to be directed precisely without disrupting the ceiling language. Good for *feature walls, art objects, adjustable emphasis*

LUXE - B

Fixed Directional Downlight
Defined. Intentional. Architectural.

Shapes light with precision while maintaining a disciplined ceiling expression. Good for *accents, spatial definition, visual hierarchy*

LUXE - D

Soft Lens Module
Gentle. Diffused. Atmospheric.

Creates a softer light presence for spaces that require visual comfort and restraint. Good for *ambient layers, circulation areas, calm environments.*

Not a Fixture, But a System.

LUXE+ Lego Light is a modular recessed lighting system designed to work with architecture, not against it.

Interchangeable modules.
Consistent ceiling language.
Freedom to adapt as design evolves.

Lighting becomes part of the ceiling composition,
not an afterthought.

One System, Multiple Expressions

Single or multi-slot configurations allow linear or clustered layouts, aligned to architectural rhythm.

Luxe+ Trimless

Plaster-In Housing
Flush. Discrete. Seamless.

Integrated within the ceiling plane for a continuous, uninterrupted finish.

Luxe+ Trim

A Precise Edge
Clear Architectural Definition

Designed to articulate the ceiling plane with clarity and precision.

AVAILABLE IN 1-4 SLOT OPTIONS
